

About Zeta Softwares Company

Zeta Softwares: Empowering businesses with smart ERP & HRMS software, with 25 Years of Domain Expertise, and Trusted by 20+ Countries, used by 200 Thousand Users Globally.

What products or services does Zeta company provide?

Zeta Software is a software product company specialized in development of cutting-edge ERP and HRMS software globally since 1998. Zeta Software also provides custom software solutions for businesses on web and mobile platforms using their exclusive technology development partner – BETA Technologies. The latest addition to BETA technology services are AI integration and development for products and solutions. Zeta Softwares have garnered the trust and goodwill of over 2000 customers spanning across 20 countries. Our impact is felt by over 10,000 core users and an impressive network of over 2,00,000 ESS users worldwide. If you would like to know more, please feel free to reach out to our sales team at sales@zetasoftware.com

ZetaHRMS – System Guide, Help Document and FAQs

What is ZetaHRMS?

ZetaHRMS is one of the most popular product launched by Zeta Softwares. It is a centralized software system for HR Admin users managing an organization's fundamental HR tasks, acting as a single source for employee data, payroll, time tracking, leave management, onboarding, and compliance, replacing manual processes like spreadsheets to streamline daily operations, improve accuracy, and provide data insights for better decision-making. The ZetaHRMS application forms the backbone of HR functions, ensuring efficient, compliant management of the entire employee lifecycle. ZetaHRMS has a separate Employee Self Service Portal that is served through a web application named ZetaHRMS ESS Application. ZetaHRMS also serves a separate mobile app for both Apple and Android Devices named as ZETAHRMS in the AppStore and PlayStore respectively.

Note: This document acts as a system guide for ZetaHRMS Core Application which is used by HR Administrators. This document does not include functionality or related system information of ESS Application and ZetaHRMS mobile apps.

Key Functions & Features

- **Employee Data Management:** Centralized, secure storage of all employee information including documents (digital records).
- **Payroll & Benefits:** Automated processing and administration of salaries, taxes, and benefits.
- **Attendance Management:** Create Attendance Rules, Tracking work hours, managing time-off requests, and shift management.
- **Leave Management:** Create and defined leave types, leave rules and managing leave related configurations.
- **Recruitment & Onboarding:** Streamlining the new hire process from recruitment until onboarding employees
- **Employee Docs:** Organizing HR documents and employee files.
- **Compliance:** Ensuring adherence to labor laws and internal regulations.
- **Employee Self-Service (ESS):** Portal management for employees to access their data and perform HR tasks.
- **Reporting & Analytics:** Generating insights from HR data to support strategic goals.

Why It's Important? Advantages of ZetaHRMS

- **Efficiency:** Automates repetitive tasks, saving time and reducing errors.
- **Accuracy:** Creates a reliable, single source of truth for employee data.

- **Compliance:** Helps meet legal requirements and reduces risk.
- **Strategic Focus:** Frees HR professionals from admin to focus on strategic initiatives.
- **Employee Experience:** Provides better access to information and streamlined processes for employees.

Basic Navigation Guide – Primary Modules / Second Level Sub-Menu Items / Third Level Items

ZetaHRMS follows a **standard menu structure** for all its modules as follows - **Primary Modules / Second Level Menu Items / Third Level Menu Items**. The parent module or parent menu refers to the primary modules which exists in ZetaHRMS.

A) The primary modules are the first level parent menus in the application sidebar on the left side of the application screen. Following are the list of all primary modules of the ZetaHRMS.

1. Core HR
2. Attendance Management
3. Compensation Management
4. Leave Management
5. Payroll
6. Recruitment
7. ESS Management
8. Performance Management
9. Project Costing
10. Loan Management
11. Learning and Development
12. Employee Docs
13. Asset Management
14. Analytics & Reporting
15. System Manager

The Parent menus are displayed in the application are subject to the registration and licensing of the primary module. If a customer has not purchased a particular module, then users will not be able to view that particular modules' parent menu in their application sidebar. If any user is not able to view a parent menu item of a primary module which is already purchased, then contact Zeta Support for the module access update.

Dashboard is the only page that exists as a parent menu without any child menus in ZetaHRMS. The default page that loads after the user login the ZetaHRMS Dashboard screen.

B) Second Level Menu Items:

All the parent menu items, meaning the primary modules which exist in ZetaHRMS has 4 second level sub-menus that exist as standard structure which is common for all modules. However, the Analytics & Reporting module and the System Manager module from above list follow different second level menus. This second level menu mainly consists of the following items which are Settings, Activities, Enquiry and Reports.

For example:

- Core HR -> Settings
- Core HR -> Activities
- Core HR -> Enquiry
- Core HR -> Reports

Similarly, for the other primary modules, the same 4 sub-menus are present. Each of this sub-menu further expands to show the various pages under them by clicking the + sign next to the menu name.

However, for the System Manager Module and the Analytics & Reporting Module, the above sub-menus are different and it does not follow the same 4 sub-menus in the second level hierarchy of menu items in the sidebar.

The System Manager Module has the following 3 items as second level menus which are as follows: -

- System Setup
- Administrative Services
- Common Services.

The Analytics & Reporting Module has 2 second level menu items under them which are as follows: -

- MIS
- Dashboards.

Settings Sub-Menu Description:

The Settings menu relates to the various settings or configurations pertaining to a primary module. Under the Settings menu, all the pages related to various settings of the module can be accessed by further expanding the menu (clicking the + sign) next to the menu name.

Activities Sub-Menu Description:

The Activities menu relates to all the transactions that can be performed under a primary module. All the activities or transactional pages pertaining to a module are placed under the Activities menu. The pages under the activities menu can be accessed by further expanding the menu (clicking the + sign) next to the menu name.

Enquiry Sub-Menu Description:

The Enquiry menu relates to querying, searching and display of data pertaining to features of the primary module. Enquiry menu can be expanded further (clicking the + sign) next to the menu name to view all pages from which the enquiries can be performed against datasets of a primary module.

Reports Sub-Menu Description:

The Reports menu relates to the various reports available under the primary modules. The reports menu can be expanded further (clicking the + sign) next to the menu name to view all reports present under the primary module.

C) Third Level Menu Items – Description

The third level menu items represent all Pages of ZetaHRMS Core Application under each module. It includes all the pages under the second level sub-menus as described earlier.

Following is the list of all navigations for the ZetaHRMS application for all its pages. It is specified in the following format: Primary Module / Second Level Sub Menu / Third Level Menu Item

1. Core HR / Settings / Division
2. Core HR / Settings / Department
3. Core HR / Settings / Designation

- 4.** Core HR / Settings / Employee Category
- 5.** Core HR / Settings / Employee Group
- 6.** Core HR / Settings / Employee Status
- 7.** Core HR / Settings / Employment Type
- 8.** Core HR / Settings / Bank
- 9.** Core HR / Settings / Grade Master
- 10.** Core HR / Settings / Schooling Benefits
- 11.** Core HR / Settings / Visa Designation
- 12.** Core HR / Settings / Visa Sponsor
- 13.** Core HR / Settings / Employment Sponsor
- 14.** Core HR / Settings / Line Manager
- 15.** Core HR / Settings / Approval Group Master
- 16.** Core HR / Settings / Approval Rules
- 17.** Core HR / Settings / Education
- 18.** Core HR / Settings / Skills
- 19.** Core HR / Settings / Religion
- 20.** Core HR / Settings / Training
- 21.** Core HR / Settings / Insurance
- 22.** Core HR / Settings / Life Category
- 23.** Core HR / Settings / Travel Sector
- 24.** Core HR / Settings / GL Code Master
- 25.** Core HR / Settings / Test Request
- 26.** Core HR / Settings / Register
- 27.** Core HR / Settings / Mandatory Settings
- 28.** Core HR / Settings / Custom Report Settings
- 29.** Core HR / Settings / Location Master
- 30.** Core HR / Settings / Division - Department Mapping
- 31.** Core HR / Settings / On-Board/Off-Board Category
- 32.** Core HR / Settings / On-Board/Off-Board Tasks
- 33.** Core HR / Settings / On Board Template
- 34.** Core HR / Settings / Off Board Template
- 35.** Core HR / Settings / Segment Settings
- 36.** Core HR / Settings / Configuration
- 37.** Core HR / Activities / Employee Master
- 38.** Core HR / Activities / Employee Probation

ZetaHRMS FAQ Document

Question 1. How to change LOP (unpaid Leave) to Annual leave (Paid Leave) after payroll.

Answer:

Once payroll is processed, then leave alterations are not possible. Salary amendments need to be manually adjusted in the next month's payroll through allowances or deductions as required. Leave balance adjustments can be handled through the following screen: Leave Management>Activities>Leave Adjustments

Question 2. How to cancel a leave?

Answer:

You can cancel a leave by navigating to **Compensation Management > Activities> Cancel Leave**.

Select the leave you wish to cancel and click the **Edit** button. A popup will display the leave details — then click **Cancel** to proceed.

Please note:

- If payroll has already been processed or the leave has been resumed, the leave will not be visible here. Such cases need to be manually adjusted through leave adjustment screen.

Question 3. How can I alter a leave or change the leave type after it has been approved?

Answer:

You can alter a leave by going to **Compensation Management > Activities> Leave Alteration**.

1. Select the leave you want to modify and click **Edit**.
2. Make the necessary changes and click **Save**.

The leave will now be **pending approval by Admin in Leave Management**. Please approve it from **Compensation Management > Activities> Approve/Reject Leave Screen**.

Question 4: Why are some employees missing or not visible in the Run Trial Payroll screen?

Answer:

Employees will not be visible in the Run Trial Payroll screen in the following cases:

1. If the employee attendance is not saved for the given month Or
2. if the employee payroll is on hold.

Please note: once payroll is processed, those employees will no longer be visible on this screen.

Question 5: How can I update an employee's joining date (DOJ)?

Answer:

You can update the DOJ directly from the employee's master screen. However, if you encounter an error, it means there are transactions linked to the employee, and the DOJ cannot be updated from the master screen. In that case, you can update it via import by following these steps:

Path:

System Manager > Administrative Services > Import

Steps:

1. Select General Format from the dropdown list.

2. Download the sample format.
3. Fill in the Employee ID and DOJ, and remove any unnecessary columns. Save the Excel sheet in TEXT format.
4. Choose the prepared file and click Import.
5. Click Save.

Note: The DOJ must follow the format shown in the below

29 Sep 2025
 25/Sep/2025
 29-Sep-2025
 29 September 2025
 25/September/2025
 29-September-2025

Kindly note that change in Date of Joining will result in changes to leave accruals and gratuity provisions.

Question 6: How to add appraisal in the Zeta software?

Answer:

Please find the below mentioned path and follow the steps for Employees appraisal.

Compensation Management >> Transactions >> Import Increment (For bulk update)

- Select Appraisal type as 'Component wise'
- Download Sample Format
- Enter the Employee ID and Salary hikes difference in required columns (enter only the difference amount. For eg; current Basic sal : 15000, new Basic sal : 20000. so enter 5000 as Basic in excel).
- Unused columns are should not be removed, make it blank
- Make it Excel 'Text' Format & save
- Select 'Month' & 'Reflect Month' on Zeta
- Choose the Saved file.
- Import
- Check the values are correct or not in listing screen
- Save

Compensation Management >> Transactions >> Approve Increment

- Click on 'Add'
- Click on 'Search & Filter' and select the employees.
- Select 'Month & Year'
- Select The employees
- Save.

You can Edit / Cancel the Increment after approving it. For that,

Compensation Management >> Transactions >> Approve Increment

- Select Month & Year

- Select Employee and Click on ‘View’ Button
- Click on ‘Cancel’ Button for cancelling Appraisal
- Go to ‘**Schedule Increment**’ Screen for edit employee’s Increment
- Select Employee and Edit (for editing the details) OR Delete (for deleting the data)
- Make the Changes and Save.

Then,

- Go to ‘**Approve Increment**’ Screen for approving the edited scheduled increment.

Question 7: How can we create new Allowances in Zeta?

Answer:

We have two types of Allowances.

- 1.Temporary Allowances
2. Regular Allowances.

You can create the Temporary allowance and regular allowances from the Compensation Management>> Settings>> Allowances.

- Click New.
- Enter the Allowance Name.
- Enter the Short Name.
- Select the type as ‘Temporary’ from the dropdown.
- Click save

Compensation Management>> Settings>> Allowances.

- Click New.
- Enter the Allowance Name.
- Enter the Short Name.
- Select the type as ‘Regular’ from the dropdown.
- Click save

Question 8: How can we create new Deductions in Zeta?

Answer:

CM - Settings

Question 9: How can we enter an allowance in Zeta?

Answer:

CM - Activities

Question 10: How can we enter a deduction in Zeta?

Answer:

CM - Activities

Question 11: How to make an employee inactive or exit from the application.

Answer:

Employee Master

Compensation Management Activities End of Service Booking and Process

Question 12: Why the mobile punch option is missing from the mobile app

Answer: ESS Management, ESS group Menu Access

Question 13: How to hold an employee salary

Answer: Payroll Activities Payroll Hold

Question 14: What is the difference between Run Trial Payroll and Run Final Payroll?

Answer: Trial payroll can be cancelled and re-run. Once final payroll is run, then no more modifications are allowed in the payroll.

Question 15: why the employees or dates missing in the Approve Daily Attendance Screen?

Answer:

Leave code mismatch or the employee is not eligible for the leave as per import done
